

Event-Study Estimates by Entity Group and Event Type

Coefficient for relative week +1; standard errors in parentheses

	All events	Political events	Terror events
All entities	-0.025 (0.025)	-0.066* (0.033)	0.016 (0.030)
Political parties	0.000 (0.057)	-0.185 (0.124)	0.175*** (0.039)
Organizations/people	-0.023 (0.027)	-0.042 (0.034)	-0.003 (0.032)

Cells report the coefficient for relative week +1.

Notes: Dependent variable is log weekly spending. The omitted baseline is relative week 0. All models include entity and data-source fixed effects; stacked models also include event fixed effects. Sample is restricted to Sunday-start weeks from 2020-01-05 through 2025-12-28.

*** p < 0.01, ** p < 0.05, * p < 0.10.
